guidelines

- **Premix** mortars comply with BS 4721 : Section 3 when tested in accordance with BS 4551. (To be superseded by EN 998 - 2.)
- Samples: We recommend the use of trial panels on site to assist your final choice. Colours illustrated are for guidance.
- Shades: The colours shown represent the medium colour range. Light and dark shades are also available.
- Special colours can be produced subject to availability of local sand or pigment.
- Pigments used comply with BSEN 12878 : 1999.

For orders and enquiries contact your local sales office (see overleaf).
