

Technical Details

Colours

Natural Red Terracotta and Natural Buff Terracotta

Sizes

	Nominal Module W x H x D	No. m ²	Weight
	450 x 225 x 90mm	10	17kg
	450 x 150 x 90mm	15	12kg
	400 x 200 x 90mm	13	13Kg
	400 x 150 x 90mm	17	10Kg

	Nominal Module W x H x D	No. m ²	Weight
	338 x 215 x 90mm	13	13kg
	338 x 150 x 90mm	20	9kg
	225 x 225 x 90mm	20	9Kg
	225 x 150 x 90mm	30	7Kg

Other sizes of TerraBlock can be made to order.

Special Units

390mm and 440mm TerraBlocks

Stop End units (required when header is exposed).
External and Internal mitres (Bonded if required).
Rebated Pistol blocks and other special shapes made to order.

328mm and 215mm TerraBlocks

Extruded Returns and Reveal blocks.
Rebated Pistol blocks and other special shapes made to order.

Compressive Strength

23.7 N/mm² – 60.0 N/mm²

Absorption

Average 5.5% by volume

Durability

Fully Frost Resistant (tested to 100 cycles of Freeze/Thaw)

Thermal Conductivity

Protected condition (1% moisture) 0.77 W/mK
Exposed condition (5% moisture) 1.04 W/mK

Design

TerraBlocks are suitable for half or stack bonding patterns. Bed joint reinforcement will be required for laterally loaded and stack bonded blockwork. A data sheet is available on request. Full recommendations and guidance for the structural design of masonry can be found in BS 5628: Parts 1,2 and 3.

TERRABLOCK

Large Format Terracotta Masonry Blocks

RED BANK

Terracotta Cladding Solutions

TerraBlock is the latest range of innovative cladding products from Red Bank, and has been developed to create stunning terracotta facades using traditional building methods.

TerraBlock uses natural colour, durability and performance – providing architects and builders with quality masonry that will withstand the test of time.

TerraBlocks are manufactured in the UK by Red Bank, who successfully combine the latest manufacturing techniques with over 100 years of experience in the art of producing terracotta.

The TerraBlock Range

TerraBlock are carefully made from fine, durable English clays and are available in two natural colours. In addition to a wide range of standard and modular formats, TerraBlock can also be made to order in a variety of other sizes.

Joints and Bonds

Dimensionally stable, TerraBlock are ideally suited for half and stack bond applications. The sharp and precise edges of TerraBlock are perfect for most joint profiles – including recessed, struck and bucket-handle.
